

ECONO GRADE EG2 MACHINE CONTROL SYSTEM

Now explore high end Machine Control at low end cost!

Grade or compound level a variety of surfaces with ease and accuracy.

A 'MUST HAVE' TOOL FOR

- Box blades
- Box scrapers
- Graders
- Mini-graders
- Skid steers

- Easy to use controls
- Quick reference information
- Programmable feature set
- Cutting edge 360 degree receiver technology
- 2mm accuracy
- 7" receiver capture height

The EG2 can control proportional time ('bang-bang') valves, proportional current (proportional flow) valves, and proportional flow valves with integrated electronics (Danfoss).

- Proportional current 50 Hz
- Proportional current 100 Hz
- Proportional current 200 Hz
- Proportional time
- Danfoss
